3.5 Notes

Note 1	The 32SDT005 Multi-node security device allows operation of an integrated multi display ships
	bridge. A security string defines the product type on all the nodes for a particular vessel's
	bridge operating plan. The product type must be set to CAT1 Radar, CAT1C Chart Radar,
	CAT2 Radar, CAT2C Chart Radar or Total Watch as appropriate.

- Note 2 A Total Watch product enables operation as a Multi-Function workstation and allows the operator to switch between Chart Radar, ECDIS and conning display. This certificate only applies when the mode is set to Chart Radar for a Total Watch System.
- Note 3 The CAT1H/CAT2H radar system approval applies when an X-Band Turning Unit is fitted and configured in accordance with the Ship's Manual.
- Note 4 The 68001AA Secure Maritime Gateway is compliant with IEC 60945 (2002) requirements. This Type Approval does not cover any application or function on the external network that uses data exchanged via the Secure Maritime Gateway.
- Note 5 This approval remains valid for equipment including subsequent minor software amendments which have been formally accepted in accordance with the TÜV SÜD Testing, Certification, Validation and Verification Regulations.
- Note 6 The product(s) listed meet(s) the requirements of IEC 62923-1 for EUT function type P, type R and type S.
- Note 7 Image transfer to a Voyage Data Recorder via IEC 61162-450 Interface.
- Note 8 The VisionMaster Net system may include the TotalCommand option which engages third party hardware outside of the scope of this Type Approval. Operation of the TotalCommand functionality is compliant with the User Configured Presentation requirements of IEC 62288. Commissioning and installation of the TotalCommand option should follow the TotalCommand Installation, Operation and Service Manual.

Annex to Marine Equipment UK Conformity Assessment Module B Type Examination Certificate

4 Conditions of Validity

This certificate ceases to be valid if the manufacturer makes any changes or modifications to the approved equipment, which have not been notified to, and agreed with TUV SUD BABT or a person appointed by TUV SUD BABT to perform that role.

During the period of validity of this certificate the applicable regulations (international conventions and the relevant resolutions and circulars of the IMO) and testing standards may change, therefore the product conformity may need to be re-assessed by the Approved Body.

The "Mark of Conformity" may only be affixed to the above type approved equipment and a manufacturer's Declaration of Conformity issued when the production-control phase module (D, E, or F) of Schedule 2 of the Merchant Shipping (Marine Equipment) Regulations 2016, as amended is fully complied with and controlled by a written inspection agreement with an approved body.
