

VoyageMaster L-VDR IV

Light Voyage Data Recorder

VoyageMaster L-VDR IV

VoyagerMaster L-VDR IV is an excellent solution for smaller commercial vessels and private yachts that need reliable data recording without the demands of IMO regulations.

This compact system captures key navigational data to aid in accident investigation and enhance maritime safety standards.

Choose VoyagerMaster L-VDR IV for dependable performance, robust design and the confidence that comes with advanced maritime technology.

L-VDR Explorer Playback Software

Experience seamless data playback and monitoring with the L-VDR Explorer Playback Software, included as a standard with all L-VDRs. Designed for ultimate ease, this Windows-based application offers real-time monitoring and effortless replay on any PC, allowing you to visualize recorded data in a range of customizable graphical and numerical formats. Its intuitive interface and user-friendly features, like a customizable conning page and Web Extractor tool for browser-based data access, make navigation a breeze. Discover the power of simple, effective playback to elevate your maritime operations.

- Windows based application for playback
- Intuitive user interface
- Customizable conning page
- Extract data from the VDR through a web browser via Web Extractor tool

The SWAP technology is quick and easy:

Streamline your operations and keep your vessel on schedule by moving repairs onshore! Our efficient flash card solution securely stores all software and configuration data, allowing for seamless transitions.

When hardware needs replacement, just insert the flash card into the new unit, and your equipment is back online in no time—quick and built for reliability. Enjoy smooth sailing with minimal downtime!

1304616 VoyageMaster L-VDR IV

Including:
